

Proteogen[®]

>>> SUPPORTING PROGRESSIVE RESEARCH

About Us:

Proteogen Biosciences (India) Pvt Ltd was founded in the year 2003 with a dedicated conviction to be a comprehensive associate for world renowned manufactures in the field of Life Sciences. Later the company was incorporated as a private limited company with a mission to expand its activities.

Over the years Proteogen is focused on to support scientists and researchers in their pursuit of achieving scientific excellence with reagents and Equipment from some of the pioneering manufactures around the world.

OUR PARTNERS

PROMEGA

A global leader in facilitating innovative solutions to scientists in academic, industrial and government establishments with a portfolio of products covering the field of genomics, protein analysis and expression, cellular analysis, drug discovery and genetic identity. Promega is the largest privately held biotech company in the world with branches in 15 countries, originally founded in Madison, Wisconsin, USA.

Products & Services:

- Multimode readers, Nucleic acid extraction systems
- DNA Quantification system & Sanger Sequencer
- Cell Based Assay kits
- Proteomics consumables
- Molecular Biology reagents

www.promega.com

BD BIOSCIENCES

A world leader in bringing innovative diagnostic and research tools to life science and clinical researchers, laboratory professionals and clinicians who are involved in basic research, drug discovery and development, biopharmaceutical production and disease management.

Products & Services:

- Flow cytometers and other instrumentation
- Cell Analysis reagents, tools and kits
- Antibodies, ELISA kits, etc.

www.bdbiosciences.com

BIO-RAD

Bio-Rad is among the top five life science companies in the world, providing instruments, software, consumables, reagents, and kits for the areas of cell biology, gene expression, protein purification, protein quantitation, drug discovery and manufacture, food safety, and science education

Products & Services:

- Electrophoresis, blotting apparatus & Imaging systems
- Protein Purification systems, Columns and Media
- PCR, RT-PCR and Digital PCR systems
- Antibodies
- Consumables and plastics for PCR/RT-PCR/Digital PCR

www.bio-rad.com

FALCON

Known the world over for the popular "Falcon Tubes", the Falcon brand has set the standard for high quality disposable plasticware for more than 50 years. Falcon branded tubes, pipets and cell culture products are designed to advance research and are used in laboratories worldwide.

Products & Services:

- Liquid Handling products
- Cell culture wares including Plates, Flask, Dishes etc.
- Cell culture and Centrifuge tubes

www.corning.com

CORNING

Provides high quality, innovative products for life science applications enabling people around the world to make and deliver life changing discoveries.

Products & Services:

- Cell Culture plasticware including Plates, Flask, Dishes etc.
- Liquid handling plastic ware
- Microplates
- Permeable support

www.corning.com

MEDLINE

Founded in 1910, Medline is a leading global healthcare company providing quality medical and surgical supplies with superior value throughout North and South America, Europe, Asia and the Middle East.

Products & Services:

- Powder - Free Nitrile Gloves

www.medline.com

BIOLINE

Bioline reagents are used by molecular biologists and other research scientists to perform test-assays and research in many fields from medical, biotechnology and marine biology to food and agriculture technology as well as forensic and environmental sciences, where life scientists have come to depend upon the outstanding quality and reliability of our reagents.

Products & Services:

- PCR/RT-PCR/NGS consumables

www.bioline.com

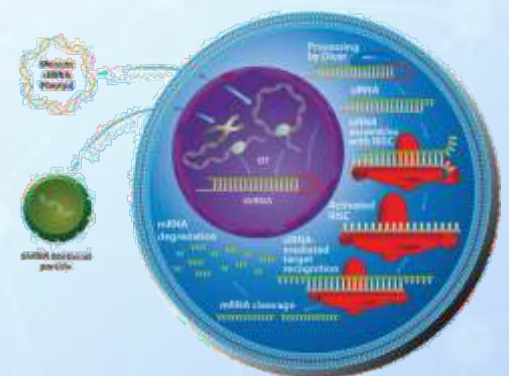

DHARMACON

Dharmacon's business is underpinned by its portfolio of cell engineering tools and services, featuring gene editing technologies such as CRISPR and base editing and gene modulation technologies such as RNAi.

Products & Services:

- Gene editing
- CRISPR modulations
- Custom synthesis
- Cell line engineering

www.horizondiscovery.com

QUANSYS BIO

A leading biosciences manufacturer dedicated to the development and manufacture of immunoassays. The multiplexing ELISA arrays provide multiple sample testing in a cost and time effective manner while uploading the utmost character of a conventional ELISA.

Products & Services:

- Multiplex ELISA kits
- Multiplex technology

www.quansysbio.com

BRAND

Brand Tech's liquid handling line, which includes the Transferpette® pipettes, HandyStep® repeating pipettes, etc. is distinguished by the accuracy, precision, safety, and ergonomics of the instrument's design.

Products & Services

- Pipettes
- Pipette tips
- Pipette controllers

www.brand.com

GENEAID

Geneaid (established in 2002) solely specializes in manufacturing of nucleic acid and protein purifications kits. DNA/RNA purification products including plasmid kits, DNA extraction kits, RNA kits, virus DNA/RNA kits, gel extraction kits, PCR cleanup kits, cloning kits, magnetic bead genomic DNA kits, PCR products, enzymes, protein products, DNA markers as well as high-throughput 96-Well DNA/RNA extraction kits.

Products & Services

- DNA/RNA/Protein extraction kit
- Plasmid DNA extraction kit
- Cleanup kits
- Endotoxin free nucleic acid extraction kits

www.geneaid.com

PROSPEC BIO

ProSpec is an evolving biotech company providing highly purified proteins worldwide which serve the research community with cytokine-related products for cancer, apoptosis, development, endocrinology, immunology, neuroscience, proteases, and stem cell research.

Products & Services

- Recombinant proteins, Cytokines, Chemokines, Antibodies, Growth Factors etc.
