

Strategic Partnership Announcement: MedTech Barcelona Expands in South Asia!

We are thrilled to announce that **ProteoGen Biosciences (India) Private Limited** is now a key strategic distributor for **MedTech Barcelona** in Southern India!

This partnership lets us bring MedTech Barcelona's pioneering cell culturing technologies and advanced *in vitro* solutions directly to India's rapidly growing LifeSciences community.

Empowering Indian Biomedical Research: By adding MedTech Barcelona's innovative products to our portfolio, we are offering researchers, academic institutions, and Biotech firms:

1. Advanced Cellular Models:

Ready-to-use *in vitro* plates, proprietary high-quality cellular kits, and customizable cell-based models designed to simplify experimental workflows.

2. Accelerated Drug Discovery:

Cutting-edge tools specifically designed to advance ADME-Tox and transporter research.

3. Guaranteed Viability:

MedTech Barcelona's proprietary shipping medium ensures that these cellular models arrive safely, efficiently, and ready to use in your lab. As part of the company's commitment to innovation, this technology is currently being developed for potential applications in organoid transportation.

For over 20 years, **ProteoGen** has been committed to being a trusted partner for India's scientific community. Partnering with a global innovator like MedTech Barcelona perfectly aligns with our mission to deliver highly specialized, world-class biotech solutions.

Ready to elevate your *in vitro* workflows?

Reach out directly to the ProteoGen Biosciences (India) Private Limited team for product availability and further details!
