ABOUT US

Proteogen Biosciences (India) Pvt Ltd was founded in the year 2003 with a dedicated conviction to be a comprehensive associate for world renowned manufactures in the field of Life Sciences. Later the company was incorporated as a private limited company with a mission to expand its activities.

Over the years Proteogen is focused on to support scientists and researchers in their pursuit of achieving scientific excellence with reagents, kits, instruments & plastics from some of the pioneering manufactures around the world.

OUR PARTNERS

PROMEGA

A global leader in facilitating innovative solutions to scientists in academic, industrial and government establishments with a portfolio of products covering the field of genomics, protein analysis and expression, cellular analysis, drug discovery and genetic identity. Promega is the largest privately held biotech company in the world with branches in 15 countries, originally founded in Madison, Wisconsin, USA.

Products & Services:

- Multimode readers, Nucleic acid extraction systems
- DNA Quantification system & Sanger Sequencer
- Cell Based Assay kits
- Proteomics consumables
- Molecular Biology reagents

WATERS BIOSCIENCES

(Formerly BD Biosciences)

A world leader in bringing innovative diagnostic and research tools to life science and clinical researchers, laboratory professionals and clinicians who are involved in basic research, drug discovery and development, biopharmaceutical production and disease management.

Products & Services:

- Flow cytometers and other instrumentation
- Cell Analysis reagents, tools and kits
- Antibodies, ELISA kits, etc.

BIO-RAD

Bio-Rad is among the top five life science companies in the world, providing instruments, software, consumables, reagents, and kits for the areas of cell biology, gene expression, protein purification, protein quantitation, drug discovery and manufacture, food safety, and science education

Products & Services:

- Electrophoresis, blotting apparatus & Imaging systems
- Protein Purification systems, Columns and Media
- PCR, RT-PCR and Digital PCR systems
- Antibodies
- Consumables and plastics for PCR/RT-PCR/Digital PCR

MOLECULAR DEVICES

Molecular Devices integrated hardware and software solutions enable automated workflow from start to finish for any research application. Whether its cell line development, 3D biology, drug screening or a combination of these technologies maximizes throughput and reproducibility to give researchers more time and greater insights.

Products & Services

- 3D Biology
- Microplate Readers
- Cellular Imaging Systems
- FLIPR PENTA
- AXON-PATCH CLAMP
- Assay Kits

EISCO NEW

EISCO offers a wide range of high-quality laboratory glassware and plasticware, designed for durability, precision, and safety. From beakers, flasks, and test tubes to measuring cylinders, pipettes, and storage bottles, EISCO provides essential labware trusted by researchers, educators, and industrial labs worldwide.

FORTIS LIFESCIENCES

A Trusted Partner to Life Science and Diagnostics Companies offering an integrated portfolio of reagents, components, and service solutions.

Fortis LifeSciences business consists of below Brands and their products.

- Bethyl Laboratories, Montgomery, USA : Antibodies, Proteins, ELISA, and other kits (1972)
- NanoComposix, Sandiego , USA : Nano materials (2003)
- Empirical Bioscience, MI, USA : Genomics Consumables (2010)
- Abcore, Sandiego, USA : Antibodies (2011)
- Vector Biolabs, Pennsylvania, USA : Viral Vectors (2004)
- Arista Biologicals, Allentown, Pennsylvania, Membrane based diagnostic products (1993)

MEHROTRA BIOTECH NEW

Mehrotra Biotech Pvt Ltd is dedicated to enhancing biotechnological, general laboratory, medical-hospital and pharmaceutical services by providing high-quality, innovative, and customized solutions. Their extensive expertise and product portfolio encompass clean air technology, advanced sterilization equipment, biological containment systems, and freeze/vacuum drying technology.

Product highlights from Mehrotra Biotech

1. General Laboratory Instruments
 - High-Speed Refrigerated Centrifuge
 - Ultrasonic Homogenizer
 - Ultrasonic Waterbath
 - PCR Workstation
2. Shaking, Incubation & Heating
 - Incubator Orbital Shaker "Bio-shake Pro"
 - BOD Incubator
 - CO₂ Incubator
3. Biosafety & Clean Air Equipment
 - Class II Type A-2 Biosafety Cabinet (EN12469 Certified)
 - Aeolus V Vertical Laminar Air Flow
4. Lyophilisation Equipment
 - Bench Top Freeze Dryer – Lyobeta Mini
 - Rotatory Evaporator – RS 3000V
 - Vacuum Freeze Dryer (T-Series)
5. Cold Storage & Refrigeration
 - Ultra Low Temperature Freezer –86 °C
 - Laboratory Refrigerators (PR Series)
 - Ice Flake Machine – COM-50 / COM-85 / COM-150
6. Sterilization Solutions
 - Automatic Vertical Autoclave
 - Autoclaves for Sterilization "MED 20"
 - Ultraviolet Sterilization Box – USB 300
